These nutritional values are subject to the normal variations that occur in products based on natural ingredients.

Ingredients

lactose, maltodextrin, vegetable oils (palm oil, rapeseed oil, sunflower oil), starch, beta-palmitate² (from palm oil and sunflower oil), hydrolysed **whey** protein, galacto-oligosaccharides from **lactose**, calcium salts of orthophosphoric acid, emulsifier citric acid esters of mono- and diglycerides of fatty acids, potassium chloride, **fish** oil, choline, Mortierella alpina-oil, L-phenylalanine, L-tyrosine, potassium hydroxide, magnesium chloride, sodium citrate, sodium hydroxide, L-arginine, calcium carbonate, L-histidine, calcium chloride, L-tryptophan, inositol, ferrous sulphate, Lcarnitine, zinc oxide, pantothenic acid, niacin, vitamin E, cupric sulphate, vitamin A, vitamin B2, vitamin B1, potassium iodate, vitamin B6, folic acid, sodium selenate, vitamin K, D-biotin, vitamin D, manganese sulphate, vitamin B12. -- 2 - special structured fat

Allergens: see ingredients in **bold**

Indications

HiPP Combiotic comfort milk is a food for special medical purposes that should be used under medical supervision for the dietary management of colic and constipation in infants. It is a nutritionally complete formula that has been specially developed with reduced lactose content, hydrolysed protein, fibres and a special fat blend to make the milk easier to digest than a standard infant formula. HiPP Combiotic comfort milk can be used from birth onwards as the sole source of nutrition for your baby, or as part of a varied weaning diet from around six months.

Contra-indications

- Not suitable for intravenous use
- Not suitable for cows' milk protein or fish allergy
- Not suitable for lactose intolerance
- Not suitable for vegetarians.

Preparation

HiPP Combiotic comfort milk powder requires mixing with boiled water cooled to no less than 70 degrees C, then further cooled before feeding to babies. It can be administered from a bottle or feeding cup as appropriate. Please ensure that all preparation instructions on the packaging are followed carefully. As this is a slightly thicker formula than standard infant milks, use a fast-flow teat on the bottle.

Scoop weight - approx. 4.3g. Standard dilution – 12.8g (3 scoops) + 90ml water (12.8% dilution)

Pack format and product code

HiPP Combiotic comfort milk is available 800g packs. Product code: HiPP Combiotic comfort milk – **GB2314-01**

Storage

Packs should be stored in a cool, dry place; do not refrigerate, and use contents within three weeks of opening

Important Notice: Breastfeeding is best for babies. It is recommended that HiPP comfort milk is only used on the advice of a doctor, midwife, health visitor, public health nurse, dietician or pharmacist. Do not use if baby is allergic to cow's milk or suspected as such.
