Indications

HiPP Organic First Infant milk is a nutritionally complete, whey-based breastmilk substitute, suitable for babies from birth who are being combination fed or not being breastfed.

Contra-indications

- Not suitable for intravenous use
- Not suitable for cows' milk protein or fish allergy
- Not suitable for lactose intolerance
- Not suitable for vegetarians.

Preparation

All HiPP Organic products carry preparation instructions on the packaging.

Shake bottle well. Pour required amount of milk into a sterilised feeding bottle. HiPP Organic first infant milk can be given at room temperature or warmed if desired. If warmed check temperature before feeding. For hygiene reasons, discard unfinished feed in feeding bottle as soon as possible and always within 2 hours.

Unused feed remaining in the packaging should be refrigerated immediately and used within 24 hours.

Pack format and product code

HiPP Organic first Infant milk is available in 470ml ready to feed, 90ml and 200ml ready to feed, and powdered formats (see separate data cards for the 90ml and 200ml ready to feed and powdered products).

Product code: HiPP Organic First Infant milk 470ml ready to feed – **GB20500**

Storage

Store in a cool, dry place and at room temperature out of direct sunlight.

Before use, unscrew the lid and check if the foil seal is still intact by gently squeezing the bottle, check best before date and shake well.

Important Notice: Breastfeeding is best for babies. It is recommended that infant formula is only used on the advice of a Doctor, midwife, health visitor, public health nurse, dietitian or pharmacist.
